## Upgrade to Bp Allied V7 SP2 Revision 2

---

Upgrade instructions are available in the [Upgrade Guide here](#). You do not need to perform any specific configuration after upgrading. You should familiarise yourself with the bug fixes and work-flow changes described below.

---

## Changes in V7 SP2 Revision 2

---

The **V7 SP2 Revision 2** release (v7.2.44830.0) includes the following updates:

### End of Support for Syncing in Bp Allied

Microsoft has notified Best Practice Software of the end of support for the .Net syncing framework, used in Bp Allied's synchronisation function. The end of support means that this framework will cease to receive functionality improvements, vulnerability patching, and security updates from Microsoft.

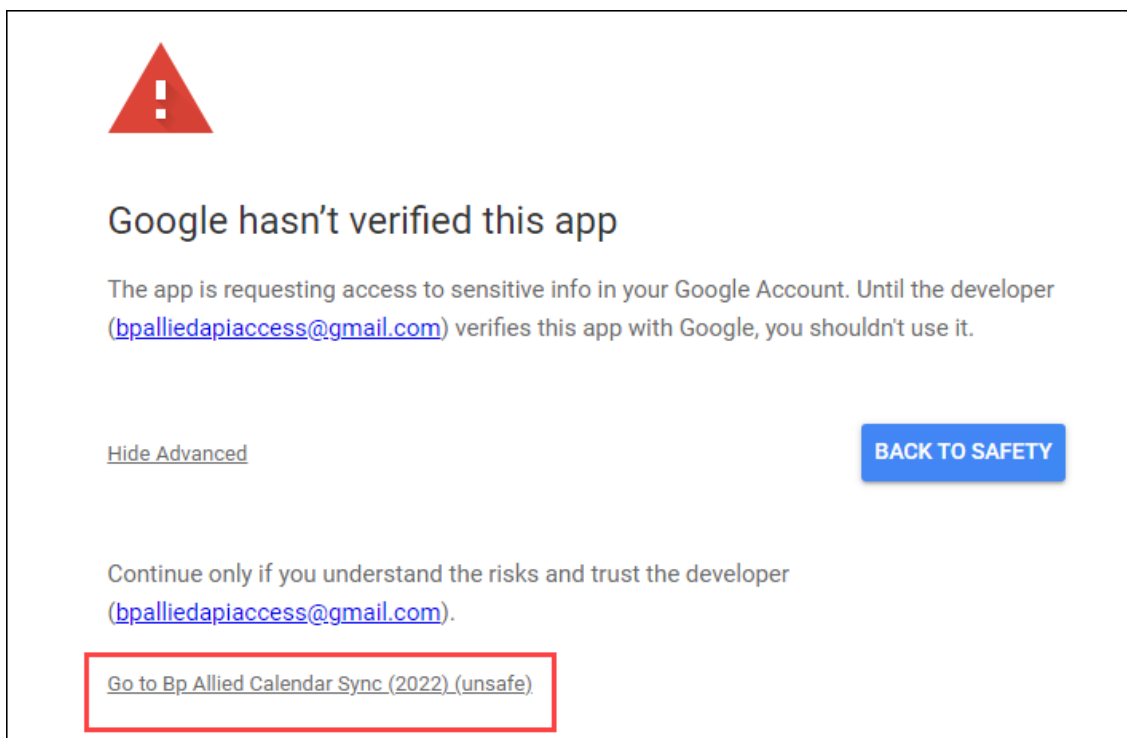

Due to the end of Microsoft support, Best Practice Software will end support for the Bp Allied synchronisation feature on **30 September 2022**. After this time, Bp AlliedSupport will no longer be able to assist practices regarding the syncing functionality in Bp Allied. The synchronisation feature will be disabled in a future program update.

Best Practice Software recommend that practices who currently use the syncing functionality get in touch with our [Sales Team](#) to discuss what this change may mean for your practice and alternatives.

### Google Calender OAuth 2.0 Integration

Due to changes with Google authentication, the Google Calender integration process in Bp Allied has been updated and users may need to re-authenticate their Google Calender in Bp Allied.

1. Go to **Options > User Administration > Google**.
2. Select **Sign in with Google**.
3. Select the **account** to authenticate.
4. Users may encounter a warning: **Google hasn't verified this app**. Select the **Advanced** link to expand the text.
5. Select the link **Go to Bp Allied Calender Sync (2022) (unsafe)**.

---

**IMPORTANT** The Bp Allied Calendar Sync (2022) link is safe to access and will not affect anything in your environment. Best Practice Software is currently seeking verification and validation with Google and the issue will be addressed shortly.

---

6. Select **Allow** to grant access to Bp Allied Calendar Sync (2022) to your Google Account,
7. Close the browser window when complete.
8. Bp Allied will display a message **Calendar accessible (Success)**.

See the Knowledge Base article [Set up Google Calendar Sync](#) for more information.

## Xero Integration

Due to older authentication methods being deprecated by Xero, some steps in the Xero integration process in Bp Allied have changed. Review the Knowledge Base article [Create a Xero Connection and Set a Bank Account](#) for more information.

## Gmail Two-Step Authentication

Due to changes with Google authentication, **Gmail accounts** now require users to complete a two-step authentication process. Review and complete the instructions in the Knowledge Base article [Set up two-step authentication for Gmail](#).

---

## Medicare DVA Claiming with GST

Medicare Online Claiming in Bp Allied has been updated to include the option to mark DVA items as **GST Applicable**.

Products and Services										
Products and Services for sale...										
<input type="text" value="Enter text to search..."/> <input type="button" value="Find"/> <input type="button" value="Clear"/>										
Categ...	Item Code	Item Description	Item Long Description	GST Applicable	Is Consultation Type	Sell Price	Per Hour	Price Inc. GST	Act...	Cr Tj
4-2000	SH06	DVA Speech Consultation (excl)		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	\$111.80				

By selecting **GST Applicable** against a DVA item in **Products and Services**, GST will be added when the item is invoiced and the **Item Price** check will be bypassed.

## Enhancements

Function	Release Notes	Key
Practitioner Availability	The list of practitioners in the <b>Practitioner Availability</b> screen from <b>Appointments</b> has been alphabetised for easier navigation.	67167
Audit Log	When two users access the same <b>Client Record</b> and save changes, Bp Allied will show a warning to the second user that the Client Record has been locked by the first user. The second user will be prompted to transfer the Client Record lock to their login and the first user may not be able to save subsequent changes. Both options to cancel or proceed from this warning are now recorded in the <b>Audit Log</b> .	21991

## Bug fixes

Function	Release Notes	Key
Referral Report	When running the Referral Report and searching by <b>Referral Date</b> , referrals with <b>Expiry Dates</b> would not display the Expiry or <b>First Appointment Date</b> details. The <b>Referral Indefinite</b> column was also displaying incorrectly. These issues have been resolved.	24519
Referral Report	When running the Referral report and searching by <b>First Appointment Date</b> , the <b>Referral Indefinite</b> column and the <b>Referral Expiry Date</b> would not display correctly. This issue has been resolved.	24519
Referral Report	When running the Referral report and searching by <b>Referral Expiry Date</b> , the <b>Details/Notes</b> field did not correctly display details. This issue has been resolved.	24519

Function	Release Notes	Key
MBS (Scheduled Fees)	When using <b>Update Products and Services</b> from the MBS (Scheduled Fees) screen, Bp Allied would produce the error <b>Bp Allied has encountered an error and must shutdown</b> if the schedule included an MBS item code with no set benefit amount. This error has been resolved and users can update MBS items without issue.	28220
Audit Log	Changes to the <b>Practice Name</b> or <b>Bank Details</b> by a user were not recorded in the <b>Audit Log</b> . This has been resolved and all changes are recorded in the log.	64634
Appointment Book	When selecting <b>Print Preview</b> from the Appointment Book on the <b>Work Week View</b> , Bp Allied would return with the error <b>Bp Allied has encountered an error and must shutdown</b> . This error has been resolved and the Print Preview button will not cause Bp Allied to shut down.	68353
Client Details	Switching between <b>Clients</b> after a change had been saved to the <b>Client Details</b> caused a significant delay in response time. To counteract this delay, the <b>Show Previous Consult</b> field is unchecked by default. This can be turned on from <b>Options &gt; Client Details &gt; Show Previous Consult</b> .	60464
User Permissions	Users with the <b>System Administrator</b> role did not have access to view all Client information. This issue has been resolved and System Administrator users now have full access to all required records.	68712
Outlook Calender Export	When running the <b>Outlook Calender Export</b> , Bp Allied would not export all appointments in the selected period. This error has been resolved.	64740
Statements	The Statement template in Bp Allied was not correctly populating all required information including debit details. This issue has been resolved.	59758
